

SILTEC

S300

GASOLINE TREATMENT

THE PROFESSIONAL RANGE

CARS - BOATS - MOTORBIKES - SCOOTERS

DESCRIPTION

A lubricating additive used mixed with leaded and unleaded gasoline.
Cleans, lubricates and protects gasoline injection systems.
Allows to increase the efficiency and power of the engine torque.

ADVANTAGES

- Reduces deterioration to a maximum.
- Keeps inlet valves clean.
- Significantly reduces carbon deposits and corrosion.
- Best recovery and maximum speed.
- Increases compression.
- Extends engine life.
- Reduces lead deposits.
- Boosts octane levels.
- Reduces fuel consumption and soiling in combustion chambers.
- Significantly reduces pollution and smoke emissions.

INSTRUCTIONS

Treat the fuel with 100 ml of product for 100 litres of gasoline (50 ml when filling up your car tank).
S300 mixes instantly with the gasoline.

PRECAUTIONS

Product classified as highly flammable.
For professional use. Consult the MSDS (upon request only).

The information in our brochures, letters, reviews and reports is provided to advise you especially regarding testing that has been carried out, with an ongoing concern for objectivity and without any commitment on our part.

PACKAGING

Box 24 x 100 ml.
Box 4 x 5 L.
Drums 30L-60L-210L.
