

SILTEC

STOPGIVRE DE-ICER

THE PROFESSIONAL RANGE

DESCRIPTION

when sprayed on, **STOPGIVRE** immediately defrosts your windshields, windows, locks, hinges, door seals, cables, mechanical articulations and any other element frozen with ice.
Acts effectively without staining, without marking and without risk to the equipment treated.

INSTRUCTIONS

Spray on the surface to be de-iced, starting with the upper part of the windshield or window. Go down gradually to the bottom.

After applying the product, wipe the surface with a cloth if possible, then spray on a second time.

If the ice is thick, repeat this procedure.

PRECAUTIONS

For professional use. Consult the MSDS (upon request only).

The information in our brochures, letters, reviews and reports is provided to advise you especially regarding testing that has been carried out, with an ongoing concern for objectivity and without any commitment on our part.

PACKAGING

Box 12 x 500 ml (aerosols).
